Meet Our Students...Abraham

It wasn't too long ago that I accepted Christ into my life. I had a hunger to learn and a desire to grow in my knowledge of My Lord and Savior. Being a new Christian made me nervous to go to a Bible college, but the professors, staff, and students made my transition go so easily. Here at Shasta Bible College and Graduate School I not only obtained a very good education, but as a new believer I felt I received the best support group which is something I would have never expected.
