

# Medical Scribe Opportunity in Redding Area

At the heart of better care.

## Mercy Medical Center

Location: Redding, CA

### What Scribes Do

Scribes receive invaluable experience in clinical settings, working side-by-side with healthcare providers in Emergency Departments (EDs), hospitals and clinics to document patients' medical histories and exams. Scribes also track the progress of diagnostic tests, alert the provider when tests have been completed, and review patients' charts for proper and complete documentation. Most Vituity scribes are undergraduate or post baccalaureate students pursuing a career in healthcare.

### The Vituity Difference

As a leading physician Partnership, Vituity truly cares about grooming their scribes to be the best and brightest future healthcare providers. Reporting directly to a physician manager and working closely with other providers, scribes, and hospital staff, Vituity scribes get the opportunity to network with their peers and professionals while building their resume and preparing for a career in the medical field.

### On the Job Training

Once hired, new scribes receive extensive paid training to prepare them for their role. The curriculum includes:

- Classroom education covering anatomy, electronic medical records (EMR), medical terminology, and more
- One-on-one shifts in the ED/hospital/clinic with a scribe trainer
- Quizzes, tests, and evaluations
- Online reference materials and continuing education

### Mercy Medical Center Redding

- A 267-bed hospital sponsored by the Sisters of Mercy of Auburn, along with St. Elizabeth Community Hospital in Red Bluff and Mercy Medical Center Mt. Shasta
- National Research Corporation's Consumer Choice Award for eight consecutive years
