MESSAGE FROM THE DIRECTOR:
Has God called you to teach? If so, why not consider a career as a teacher in the Christian school. Opportunities abound for qualified teachers who know the Word of God and can integrate Biblical truth into the academic disciplines. At Shasta Bible College and Graduate School we receive more requests for qualified Christian School teachers than we can fill.

Shasta Bible College is approved to offer course work which meets the ACSI (Association of Christian Schools International) requirements for teacher and administrative certification and certification renewal. Shasta Bible College has been approved by ACSI to offer course work leading to CEUs (Continuing Education Units) in the area of Elementary and Early Childhood Education and Administration. College level courses and CEUs in the areas of Biblical Studies, Early Childhood, Elementary and Secondary Education, and Educational Administration are taught both on-campus and off-campus in cooperation with individual Christian schools. CEUs may be earned in regular college course work (1 semester hour of credit = 3 CEUs) or by enrolling in an approved in-service program (1 CEU= 6 hours of instruction).

ACSI Certification prepares teachers for private or Christian schools. This program does not prepare teachers for state credentialing for public schools.
